

Thunder-KMT21P

High-performing, 21" subwoofer

DESCRIPTION

The Thunder-KMT21P is a high performance sub-bass system designed for use with small to medium wavefront system, in both touring and install applications.

It features a 1800 watt 21" drive unit with magnet structure and suspension engineered

for maximum linear excursion.

The ultra-light reflex cabinet is fitted with two pocket handles and one M20 thread mount position for attaching mid-high speakers. It features large area porting to reduce air noise.

The KMT21P is ideal for medium throw applications, like theaters, concert halls, AV installations.

All KMT21P components are designed by K-array R&D department and custom-made under K-array's quality control system.
