

KRM33

Low profile variable coverage speaker

Redline

portable KRM33

Features

- Selectable horizontal coverage
- Extended frequency response
- Strong stainless steel chassis
- Controlled horizontal dispersion

Applications

- Arrayable wedge monitor
- Ceiling and under-balcony speaker
- Corporate installations
- House of worship
- Small clubs
- Theatrical sound reinforcement

The KRM33 or “the cheese box” as it has been affectionately nicknamed, is an ultra-compact and low-profile powered wedge speaker with a controlled horizontal pattern and has an extended frequency response. It is made up of three 3.15” cone drivers and one 6” passive radiator. This combination guarantees a controlled and linear emission on a really wide range, with a bass enhancement mode that can go from 70Hz to 18KHz.

The KRM33 is equipped with a two channel amplifier and a DSP that can be used to adjust the EQ directly inside the box. An USB direct connection guarantees an easy plug & play connection. The DSP also offers the possibility of changing the horizontal pattern of the single speaker and its bass response, two buttons located at the back of the box are used to quickly change these settings without the need of a computer.

The controlled horizontal dispersion gives the possibility of creating horizontal arrays which increase the SPL and the coverage while maintaining a high and constant signal-before-feedback within all the cluster’s beams.

The stainless steel chassis is a sturdy and durable box solution which is also remarkably short in height. Thanks to this feature the KRM33 can be easily and discreetly integrated in scenography designs, broadcast studios as well as under-balcony speakers in theaters.

All the components of the Redline KRM33 are designed by the K-array R&D department and made in Italy under the K-array quality control system.

KRM33 specs

Speaker power handling	Frequency range	180 W ^(AES)
	SPL 1W/1mt	70 Hz – 18 KHz +/- 3dB ⁽¹⁾ / 100 Hz – 18 KHz +/- 3dB ⁽²⁾
	Maximum SPL	93 dB
		115 dB (cont.) – 121 dB (peak)
Horizontal	Coverage	
	DSP controlled (30° / 70° selectable)	
Vertical	90°	
Type	Crossover	
	DSP controlled	
Frequency	70 Hz minimum (preset dependent)	
Horizontal pattern	Transducers	
	3 X 3,15" Neodymium cone driver with 1" voice coil	
	1 X 6" passive radiator	
	Selection Switch	
Response	Spot – Flood	
	Bass Enhancer	
Analog connector	Audio Input	
	1 male + 1 female 3-pin balanced XLR	
Connector	Remote Control Input	
	1 USB type B	
Connector	Power Input	
	2 x PowerCon IN/OUT	
Type	Amplifier	
	1 module class D - DSP controlled	
Nominal power output	2 X 125 W @ 4 Ω 1% THD + NOISE	
Protection	Dynamic limiter - Over current - Short circuit	
Frequency response	20 Hz – 20 KHz, all load +/- 0.5 dB	
Damping factor 8Ω, 100 Hz	> 500	
	0.003%	
Nominal voltage	AC Power	
	115 / 230 Vac auto switching	
Operating range	85 – 132 Vac 170 – 264 Vac 50 – 60 Hz	
	2 A / 115 Vac 1 A / 230 Vac	
I. Nom	Consumption	
	10 W	
Quiescent power (with no signal in)	110 W	
1/8 rated power (pink noise) @ 4 Ω	660 W / 120 ms	
Peak power	Certification	
IP	40	
	Physical	
Dimensions	26.6 x 10.3 x 3.02 cm (10.47" x 4.06" x 11.89")	
Weight	5.2 Kg (11.59 lbs)	

Notes for data
1. Bass enhancer ON.
2. Bass enhancer OFF.
